About The Course:

India, a civilization of great antiquity, is endowed with an abundant cultural legacy that is characterized by its diversity and pluralism. The objective is to acquaint the individuals enrolled in the course with the concerns related to heritage regions, as well as the potential advantages offered by heritage structures, sites, precincts, and areas. Additionally, emphasis is placed on recognizing the imperative of integrating development initiatives with the preservation of cultural heritage. The aim of this course is also to aware the participants about potential advantages offered by heritage structures, sites, precincts and to examine the concept of conservation as a comprehensive framework that connects the past, present, and future.. Additionally, emphasis is placed on recognizing the imperative of integrating development initiatives with the preservation of cultural heritage. Participants are provided with an introduction to the conceptual framework in addition to the concepts related to conservation and heritage, and an explanation of various types of heritage.
