Online Quiz Contest on World Environment Day (5th June 2022)

Jointly Organized By

DEPARTMENT OF PHYSICS AND DEPARTMENT OF CHEMISTRY

Krishnagar Women's College

Aurobinda Sarani, Krishnagar, Nadia, WB, PIN- 741101

Introduction:

On June 5, 2022, Krishnagar Women's College celebrated World Environment Day with a powerful message of environmental awareness and responsibility. The occasion was marked with an online quiz competition organized jointly by the Department of Physics and the Department of Chemistry, highlighting the pressing environmental issues facing our planet. The event aimed to engage and educate participants on critical environmental concerns while encouraging them to take action.

The Significance of World Environment Day:

World Environment Day is celebrated annually on June 5th to raise global awareness about preserving and protecting our environment. This day serves as a reminder of the need for collective action to address environmental challenges. The theme for World Environment Day 2022 was "Ecosystem Restoration," emphasising the urgent need to heal our ecosystems and prevent further damage to our planet.

Environmental Challenges:

During the opening statement of the event, it was highlighted that our planet is currently facing numerous environmental problems, including:

Environmental Pollution: The release of pollutants into the air, water, and soil that harm the environment and human health.

Global Warming: The ongoing increase in the Earth's average temperature due to greenhouse gas emissions, leading to climate change.

Depletion of Ozone Layer: The thinning of the ozone layer, which protects us from harmful ultraviolet (UV) radiation.

Acid Rain: The deposition of acidic compounds in the atmosphere, which can have harmful effects on ecosystems, soil, and water bodies.

Soil Erosion: The loss of fertile topsoil, primarily due to human activities and unsustainable land use practices.

Promoting Environmental Awareness:

The online quiz competition served as an effective platform to promote environmental awareness and educate participants about these critical issues. By participating in the quiz, individuals had the opportunity to test their knowledge about the environment and learn more about the challenges we face.

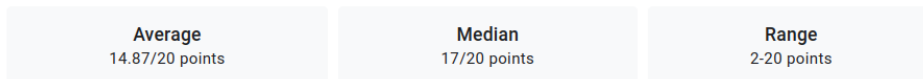

Event Details:

Organizers: The event was jointly organized by the Department of Physics and the Department of Chemistry at Krishnanagar Women's College.

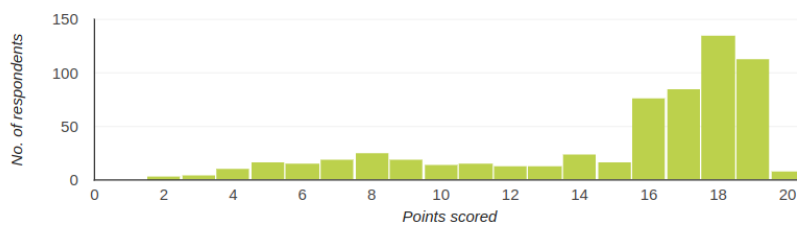

Date: The online quiz contest took place on June 5, 2022.

Score	Name	Name of the College/Institution	Designation	Class / Semester (f#)	Subject	Position
20 / 20	Purba Gupta	Bankura Sammilani college	Student	2sem	Geography	1 st
20 / 20	Subham karmakar	Bankura sammilani college	Student	2nd semester	Geography	2 nd
20 / 20	Ananya Biswas	Vidyasagar University	Student	M SC Part. II	Physics	3 rd
20 / 20	Bubai Dutta	Mahatma Gandhi college	Student	2nd semester	Geography	
20 / 20	Bhairab Tantubay	Bankura sammilani college	Student	2nd semester	Botany	
20 / 20	Samaul Hoque	Malda polytechnic	Student	2nd semester	Mathematics	
20 / 20	Dr. Asit Adhikari	Baneswarpur Ramchandrapur An	Teacher		Physiology	
20 / 20	Priya Dutta	Saldiha college	Student	2nd semester	Bengali	
19 / 20	Ranita Sarkar	Krishnagar women's college	Student	6th	B.sc Geography Honours	

Participation: The competition was open to all, and participants were encouraged to join by filling out a Google Form provided by the organizers. 637 participants from all around the country joined the Quiz Contest.

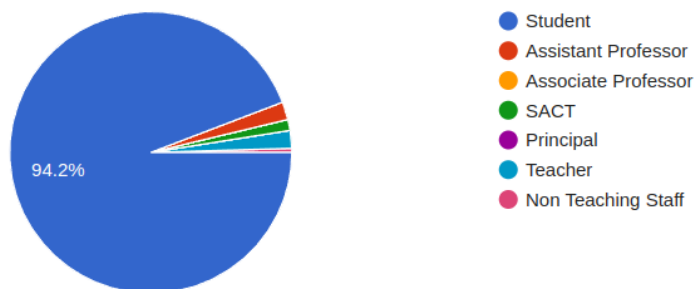

Total points distribution

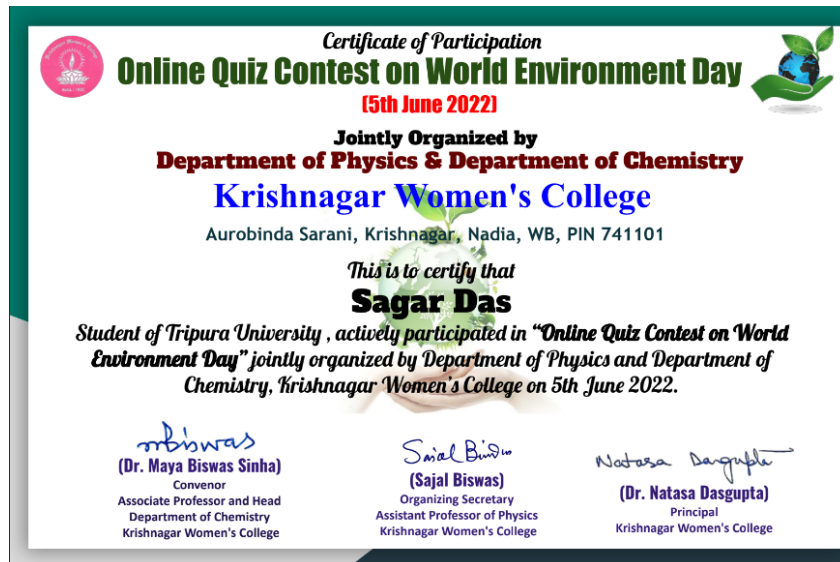

Designation

637 responses

Certificates: Certificates were given to all participants as a token of appreciation for their involvement in raising awareness about environmental issues.

Quiz Link: Participants accessed the quiz through the following link: Quiz Link.

Conclusion:

Krishnanagar Women's College's initiative to celebrate World Environment Day through an online quiz competition reflects the institution's commitment to raising awareness about the environment and its challenges. By educating individuals about environmental issues and encouraging them to take action, we can collectively work towards a more sustainable and healthier planet. It is imperative that we all contribute to protecting our environment for the well-being of current and future generations
