Platform:

The quiz was conducted using Google Forms, providing a user-friendly and efficient platform for both organizers and participants. Google Forms allowed for easy submission and evaluation of responses, ensuring a smooth and hassle-free experience for everyone involved.

Insights

Average 19.88/40 points	Median 19/40 points	Range 10-39 points
-----------------------------------	-------------------------------	------------------------------

Results:

The participants displayed commendable knowledge on energy conservation, showcasing their understanding of various aspects related to sustainable energy practices. The top three participants, along with their details, are as follows:

Your Name	Designation	Semester	Roll No	Position
Moumita Roy Chowdhury	Student	5th	1210002	1st
Tina Roy	Student	5th	0420	2nd
Priya sadhukhan	Student	3rd	2220009	3rd

Conclusion:

The Online Quiz Contest on National Energy Conservation Day proved to be a successful and engaging event, fostering awareness and knowledge about energy conservation among the participants. The active participation of 26 students reflects the importance and relevance of such initiatives in educational institutions.

This event not only celebrated National Energy Conservation Day but also served as a platform for students to showcase their understanding of energy-related issues. The use of Google Forms as the quiz platform contributed to the overall efficiency and effectiveness of the contest.

The Department of Physics, Krishnagar Women's College deserves commendation for organizing a well-executed and educational event that aligns with the global efforts towards a sustainable and energy-efficient future.
