

Report on
Observation of National Science Day 2023
Date:- 04.04.2023 (Tuesday), Time : 11:30 am onwards
Venue:- Bina Das Memorial Hall
Organized by
Department of Physics
Krishnagar Women's College
Aurobinda Sarani, Krishnagar, Nadia, WB, PIN -741101

The Department of Physics , Department of Geography and Department of Chemistry of Krishnagar Women's College organized the observation of National Science Day on April 4th, 2023, at the Bina Das Memorial Hall. The event aimed to commemorate the contributions of Indian scientists and create awareness about the importance of science in our daily lives.

The event commenced at 11:30 am with an inaugural session. The faculty members and students of the Department of Physics, as well as other science enthusiasts from the college, were present in large numbers. The students and teachers of the Holy family Girls' Primary School were invited in the ceremony.

The program began with the welcome speech by the Head of the Department of Geography, Smt. Jayashree Mandal followed by Dr. Maya Biswas Sinha, Associate Professor and HOD, ,Department of Chemistry and Coordinator, IQAC, KWC and Sri Sajal Biswas, Assistant Professor of Physics, KWC. The speakers emphasized the significance of National Science Day and the role of science in shaping our society and economy. Other speakerrs delivered an inspiring

speech highlighting the achievements of Indian scientists and the importance of scientific research in addressing societal challenges.

The highlight of the event was a series of presentations and demonstration by the students and faculty members of the Department of Physics. The topics covered various areas of physics, including electronics and electrical circuits. The presentations were engaging and informative, providing insights into the latest advancements and research in the field of physics. The students actively participated in the question-and-answer sessions, showcasing their curiosity and enthusiasm for science.

In addition to the presentations, there were also interactive demonstrations and exhibits showcasing scientific experiments and models in the department of Physics. The students eagerly participated in these hands-on activities, gaining practical exposure and understanding of scientific concepts. Feedbacks were collected from the participants.

To encourage and recognize the scientific talent of the students, a poster presentation was organized during the event. The students presented their thoughts and innovative ideas on various scientific topics.

The event concluded with a vote of thanks by Dr. Natasa Dasgupta , Principal, Krishnagar Women's College, . She expressed her gratitude to the chief guest, faculty members, students, and all participants for their active participation and contributions towards making the observation of National Science Day 2023 a success.

Overall, the observation of National Science Day at Krishnagar Women's College was a grand success. It provided a platform for students and faculty members to come together and celebrate the spirit of science. The event inspired and motivated the students to pursue a career in science and contribute to the advancement of society through scientific research and innovation. It also highlighted the importance of promoting scientific temper and creating awareness about the significance of science in our daily lives.

The Department of Physics at Krishnagar Women's College deserves commendation for organizing such an informative and engaging event, which not only celebrated the achievements of Indian scientists but also instilled a sense of scientific curiosity and passion among the students. The observation of National Science Day 2023 was indeed a memorable and impactful event, setting a benchmark for future science-related activities in the college.
